Making wedding memories
to last a lifetime.

Be Different, Be Unique

Make Your Wedding Totally You!

Before we show you some of the ways we can make your wedding reception **unique, elegant and fun**, you need to know that not everything in this brochure will be right for you. Hopefully it will get you thinking about what you really want your wedding to look and feel like and will help you plan your special day.

Make it your mission to make everything about your wedding personal to **you!**

Your wedding is a totally blank canvas and you can do just about anything you want!

Think about what you have seen at other weddings you have been to - what did you love or hate about them? Write a list to help you ensure that absolutely everything is the way you want it and make it a day you'll never forget!

“Everyone we spoke to commented on how good you were and what a fantastic day and night it was..”

“We were really impressed with the service you provided, both in the run up to the wedding and on the day itself.”

“We have never been to a wedding before where the dance floor was not empty once.”

“We are so pleased that we booked you all day as you made it run so smoothly and really went above and beyond.”

“We have had so many comments, people saying it was the best wedding they have ever been to – largely thanks to you!”

On your wedding day, everything should be tailored to you and your guests.

Our events co-ordinator would love to give you a call and have an informal chat about your vision for your special day, share ideas and talk all things wedding!

You will receive a detailed personal online planner to help you choose and plan your wedding entertainment. From the ceremony, wedding breakfast, your first dance and party music, to all the details for the key moments and activities for your special day. You'll find the planner invaluable to help you and your guests quickly and easily create your wedding day soundtrack.

As your wedding day approaches, we can organise a phone call or meeting with the DJ who will have the privilege of entertaining you and your guests on your wedding day.

Weddings are fantastic, especially your own, so keep reading and let's spark some magic and fun into the most important party of your life!

Your Wedding Ceremony

The moment you walk down the aisle to your special wedding song is a moment to be cherished forever.

Your wedding ceremony is going to be one of the most intimate and emotional parts of your wedding day. Together we can create your own unique ceremony soundtrack that will not only evoke emotion in you and your guests but completely personalise your wedding.

You're undoubtedly going to be nervous on the most important day of your life and will want to be reassured that all the music you have carefully selected for such a spotlight moment is seamless. Rather than using a CD player provided by your venue we will install a discreet sound system so that your music can be heard clearly, with all of your songs backed up for peace of mind. With your ceremony music in the hands of a professional, the only thing you'll have to worry about is getting married and saying your vows!

Your online planner will assist you to think about the music that you want to play as your guests arrive, as you walk down the aisle, during the signing of the register and when you leave as newlyweds.

Why not let us take care of it for you and give you complete peace of mind?!

TOP TIP

A Trigger Song before the start of your wedding ceremony is a fun way to put your partner at ease and let them know that you are ready and waiting.

We'll agree a song to play which will signal to them that you are about to walk up the aisle.

Brace yourself!

Your Wedding Breakfast Make it Memorable, Make it Magical...

Nobody wants to sit in silence whilst listening to the scraping and clattering of knives and forks, so background music for your wedding breakfast is an absolute must! But rather than using a CD provided by your venue (which will have been played at countless weddings before), why not let us create a unique and personalised playlist for you?

Perhaps you already have a theme in mind – classical, orchestral, rat pack or jazz – or maybe you'd prefer a mix of romantic classics and modern love songs? Whichever songs you choose, it will create a wonderful and unique musical backdrop for your wedding. Played on a discreet and high quality sound system, there will be no awkward silences and absolutely no use of the 'repeat' button.

Make it Shine...

Everybody loves that moment at a wedding when bellies are full, the wine is flowing, and it's time for those all-important speeches. But there's nothing worse than being the guest at the back of the room who can't hear a thing!

Whoever is making a special speech for you, don't let their hard work (and their blood, sweat and tears!) go to waste. We can provide you with radio microphones to ensure that every single word is heard clearly by all of your guests. Give them the attention they deserve. Let them be heard, let them shine, and let them – and your guests – enjoy every single moment of their time in the spotlight.

TOP TIP

Have you ever been to a wedding, sat at the wedding breakfast not knowing the other guests you're sharing a table with?

Once you've had some small talk about work, the kids and so on, there is often an awkward silence.

Why not allow your All Day Host to ensure everyone has a great time and interacts with a few fun ice breakers. From best celebrity look a likes to the happiest table, your guests definitely won't have any awkward silences!

Make it Seamless...

Every wedding has a timeline and it takes a skilled Master of Ceremonies to keep it on track. Don't leave it up to your venue manager who will have so many other things to organise on the day. Let your venue manager take care of their staff and their venue, and let us take care of you!

From welcoming you as newlyweds at the start of your wedding breakfast, to introducing speeches and announcing the cutting of the cake, there's a lot to be done. We can liaise and coordinate with your photographer and videographer to assist them with organising guests and be the reassuring presence you'll need, ensuring that everything is seamless! And, of course, we'll make sure that every announcement we make is delivered with the sentiment and emotion that it deserves.

Toastmaster

As well as the above, let us take it one step further. We are proud members of the Association of Scottish Toastmasters. Your Toastmaster can add a really traditional feel to your special day. Complete with red tail-coat and commanding voice- they will ensure your special day is conducted with attention to protocol.

TOP TIP

Our All Day Hosting package really adds to your wedding day, particularly as you move on to your evening celebrations.

Remember it is YOUR day and the overall flavour of the music should be a reflection of yourselves.

However, it is important to consider your guests. After all, it's them that you want to be up enjoying themselves on the dance floor!

What music styles do you and your guests love? Your online planner will really help you to select your music requests and our guest request portal is a great way to get guests involved during the planning stages.

Your DJ will also be delighted to take requests on the night!

Our packages are very individual and can cater for all your requirements.

We can provide everything from your evening reception to our All Day Hosting package where we can take care of all your sound, lighting and hosting of your special day from ceremony to last dance.

The Bouquet Toss

It was believed that the bride's bouquet could capture 'good spirits' and ensure a joyous wedding day. This explains the throwing of the bouquet, allowing this good fortune to rub off on friends and family.

Tradition says that any single women lucky enough to catch the bouquet will be the next to marry!

...Dramatic Venue Lighting

Mood lighting or uplighting as it's also known is one of the most effective and elegant ways of adding colour, warmth and elegance to your wedding venue.

If you have a wedding colour scheme then why not have mood lights to accentuate your reception venue. Mood lighting is a great way of changing or enhancing the look of a plain function room or marquee and really gives the WOW factor with incredible value for money.

Mood lighting is ideal for weddings and drinks receptions. We can create a wide range of colours and co-ordinate or contrast with your theme.

The lights can be set to fade between different colours to create an amazing effect.

Your very own After Party?

All the best showbiz events have them! Perfect for those couples who want to party on 'til dawn.

Why not end the formal reception at say, 11pm with a last dance and a big cheer or an archway, pop out and change, then come back for the "after party" where you can let your hair down for an extra hour. Whether it's a planned event or a total surprise for your guests, it's guaranteed to make them remember your reception for a very long time!

Keep your guests amused

Why not think about some added extras to keep all your guests entertained during the turn around of the reception room for the night time entertainment.

We have some an amazing photo booth and candy cart to make you big day even more special!

We have lots of extras available so please do contact us and we can tell you all about them!

TOP TIP

What about a modern twist on the traditional Father and Daughter dance? With a little planning we can make this a real spot-light moment on your wedding. You can even record a special message to be played over the instrumental in the middle of a song.

Your Bouquet Toss As a wedding tradition this creates eagerness and excitement amongst the single ladies. Who will be the one getting married next? A garter toss for the groom could create even more memories and hilarity for everyone to cherish!
